

HealthPros

International Training Network for
Healthcare Performance Intelligence Professionals

Great interest in the HealthPros Training Network worldwide!

As reported in the first Newsletter, the recruitment of the HealthPros Training Network started officially mid-January 2018 and at closure of the second deadline (31st of March) we had 150 interested applicants (we included those applying April 1st). Even after that applications came in until a total of 171, although these were not anymore included in the first selection.

All applicants were checked for eligibility by our project manager and subsequently the 1st, 2nd and 3rd choice candidates were sent to the beneficiaries. Figure 1 shows the distribution in country of birth of the applicants, while in Figure 2 the distributing in country where the MSc was obtained is shown.

A first shortlist was made and discussed, after which a total of 62 skype interviews were held. Around May/June the second shortlists were made and candidates were either invited for a second skype interview or for a face-to-face interview (both including an assignment). Currently, most applicants have been secured (or will be secured in the coming month) and we aim to have them all start in September and October 2018.

Please have a look on our website, we are updating regularly (<https://www.healthpros-h2020.eu> > people > healthpros fellows.

First ESR training week (29/10-6/11 2018) and second Consortium meeting

The Consortium meetings will be held the 1st of November at the Planetarium in Amsterdam, and the 2nd of November at the Amsterdam University Medical Centers (AUMC), location AMC. The Early stage researchers (ESRs) will be participating in an innovative workshop on performance indicators, courses on project management, career development and a lecture on Gender in research. The 2nd of November, the ESRs will follow the course “Handling the media”, after which the first Immersion event with Dutch companies will be organized.

During the weekend a social event and on 5-6th of November they will finalize their training week with the course “World of Science” at the AMC. On the website under Training > Course program you can find more details on the respective courses.

Prof. Niek Klazinga visited the Department of Health Economics, Corvinus University of Budapest

Prof. Niek Klazinga (AUMC), the coordinator of the HealthPros program and the Honorary Professor of Corvinus University of Budapest visited the Department of Health Economics, Corvinus University of Budapest on the 14th May 2018. Prof. Klazinga and the colleagues at the Department of Health Economics reviewed the initial tasks in the HealthPros project and discussed future plans as well.

Upcoming events:

29th October – 6th November 2018

Training week ESRs, Network Meetings (incl. Steering Board) and Immersion Community event

April 2019

Spring Meeting, second trainingsweek ESRs and Mid term review in Denmark.

For more information on the network and topics/input for the next newsletter please contact the project manager (Laurian Jongejan);
